

Articulated Right Hand Rest

HRR Articulated Right Hand Rest allows adjustment for different positions according to your work needs.

An indispensable tool for precision work which provides a point of support very close to the working zone.

It makes the work more comfortable enabling a more relaxed position and reducing fatigue, which makes it perfect for precise working processes like placing components, soldering, picking with tweezers or solder feeding.

It can be coupled with RWS, RWB or RWT Adjustable Rework Arms for those working processes where hand stabilization is required.

**Don't believe us...
TRY IT!**
