

Bevel Bent Cartridge Ø 0.6

This cartridge is very similar to the [C245-748](#) but it has a slight difference: the bevel tip is designed so that you use the top of the tinned area.

C245 cartridge range is the widest one of JBC with many shapes, sizes and special models.

They are appropriate for general soldering purposes and they are perfect for both SMD components or for applications with high power requirements such as ground plane soldering.

They work with [T245](#) Handpieces.

[JBC Long Life Tips](#) offer instant heat up, excellent heat transfer and great durability.

They last **5 times longer** than other brands thanks to the JBC Most Efficient Soldering System and the Sleep & Hibernation features.
